DD/ST# 2908-67

7 JUL 1967

MEMORANDUM FOR: Director of Personnel

ATTENTION: Chief, Position Management and Compensation Division

SUBJECT: Amendment to the Office of Scientific Intelligence Staffing Complement

1. Changes in the world environment and in the requirements for scientific intelligence have caused a re-evaluation of the role that the General Sciences Division plays in meeting the needs of the Office of Scientific Intelligence, DD/S&T and CIA. Chief among the changes are the emergence of Communist China as a world power and threat and the increased needs for intelligence projections 10-20 years into the future, particularly with respect to the Soviet Union. The proposed table of organization is shown in Tab A. The new title "Physical Sciences and Engineering Division," emphasizes the inclusion of technology as part of the subject coverage. A deviation from the usual T/O structure is planned for the Office of the Chief. A Technical Director will replace the Deputy Chief, to provide support in scientific and technical areas. Administrative duties will be carried out by a strong Executive Officer.

25X1A

2. With the phase out of the OSI project at [redacted], there is no longer a need for a Security Officer at this location. Position number 1276 is, therefore, being transferred from the U.S. Field to the Soviet Branch, Physical Sciences and Engineering Division and reclassified IO-Physical Science.

3. In performance of his duties as Chairman of the newly established SIGINT Overhead Reconnaissance Subcommittee, the Chief, Defensive Systems Division, OSI, requires a two-man secretariat. Accordingly, it is requested that the following be established in the Defensive Systems Division immediately following the Office of the Chief structure:
